## **Selected Alternative**

### **-Airport Road Extension, Old Landing Road to SR24 -Old Landing Road and Warrington Road Intersection Improvements**

Following the public workshop held on April 4, 2023 and the subsequent public comment period ending on May 2, 2023; the Delaware Department of Transportation has selected a path forward for both the Airport Road Extension, Old Landing Road to SR 24 and Old Landing Road and Warrington Road Intersection Improvements projects. The project team took public comments and input from stakeholders into consideration along with recommendations from the Henlopen TID, traffic studies, crash histories and existing intersection conditions.

For Airport Road Extension, the selected alternative will include a roundabout at the intersection of Airport Road and Mercury Drive (4A: Alternative 1), will have Airport Road bypassing to the east of Copper Drive (4B: Alternative 1), and will include a Continuous Green T intersection at the intersection of Airport Road and Miller Road (4C: Alternative 2). Additionally, a Shared Use Path will be added to the scope of the project running along the northwest side of Old Landing Road from Warrington Road through the Airport Road Extension and connecting to the existing multi-modal facilities near SR 1. Please see the project website with the updated display of the selected alternative: [www.deldot.gov/projects](http://www.deldot.gov/projects).

For the intersection of Old Landing Road and Warrington Road, the project is being put on hold until the Airport Road Extension project is complete, at which time further traffic studies can be completed and the alternatives for this intersection can be re-evaluated. Please see the project website for future information on the project: [www.deldot.gov/projects](http://www.deldot.gov/projects).

Thank you to all who attended the public workshop and provided comments. We will hold another workshop in 2024 once the preliminary design is complete. If you have any further questions, please contact our Public Relations team via email at [DOTpublic@delaware.gov](mailto:DOTpublic@delaware.gov) or by phone at 302-760-2080.
