*Analysis of offset intersection (no roadway realignment) at Airport Rd & Old Landing Rd resulted in significant intersection failure or significant right-of-way takes to achieve acceptable delays

**Analysis of single lane roundabout at Airport Rd & Miller Rd resulted in intersection failure

ALTERNATIVE 1: ROUNDABOUT

ALTERNATIVE 2: MINI-ROUNDABOUT

ALTERNATIVE 3: TRAFFIC SIGNAL

ALTERNATIVE 4: MODIFIED TRAFFIC SIGNAL*

Airport Rd Ext project reduces Warrington Rd peak hour volumes by 40 - 70 vehicles (Henlopen TID)

* Alternative 4 matches the existing intersection configuration with the addition of a right-turn lane on southbound Old Landing Road and a separate right-turn lane on eastbound Warrington Road. This has been evaluated per recommendations made by the Old Landing Road Coalition.
